2024 AC Water Main Replacement

Dear Island Resident,

Construction of the 2024 AC Water Main Replacement Project is ready to start soon. The City Council, at their July 16, 2024, council meeting, awarded the project to Kar-Vel Construction. The construction is anticipated to start at the end of September 2024 and be completed by the end of June 2025.

The general scope of work for this project includes the following water system improvements:

- The replacement of approximately 5,100 Linear Feet of Asbestos Cement water main with ductile iron pipe.
- Installing 9 fire hydrant assemblies, 98 water services, 5 connections to existing water main.
- Concrete and HMA road restorations within the neighborhoods.

The project will take place in the following areas, as shown in red shade on the map on the back:

- 3700 Block of Greenbrier Lane to SE 40th Street
- 93rd Avenue SE from SE 40th Street to SE 43rd Street
- 94th Avenue SE from 93rd Avenue SE to SE 43rd Street
- Crestwood Place
- Mercerwood Drive and 93rd Avenue SE

Water main shutdowns will be required to install new ductile iron water main, fire hydrants, and to reconnect water services. Advance notices will be provided to affected residences prior to each shutdown. The contractor will work per schedule, once finished they will move to the next location or schedule.

Please e-mail George.fletcher@mercerisland.gov or call me at (206) 640-5379 if you have any questions. Thank you.

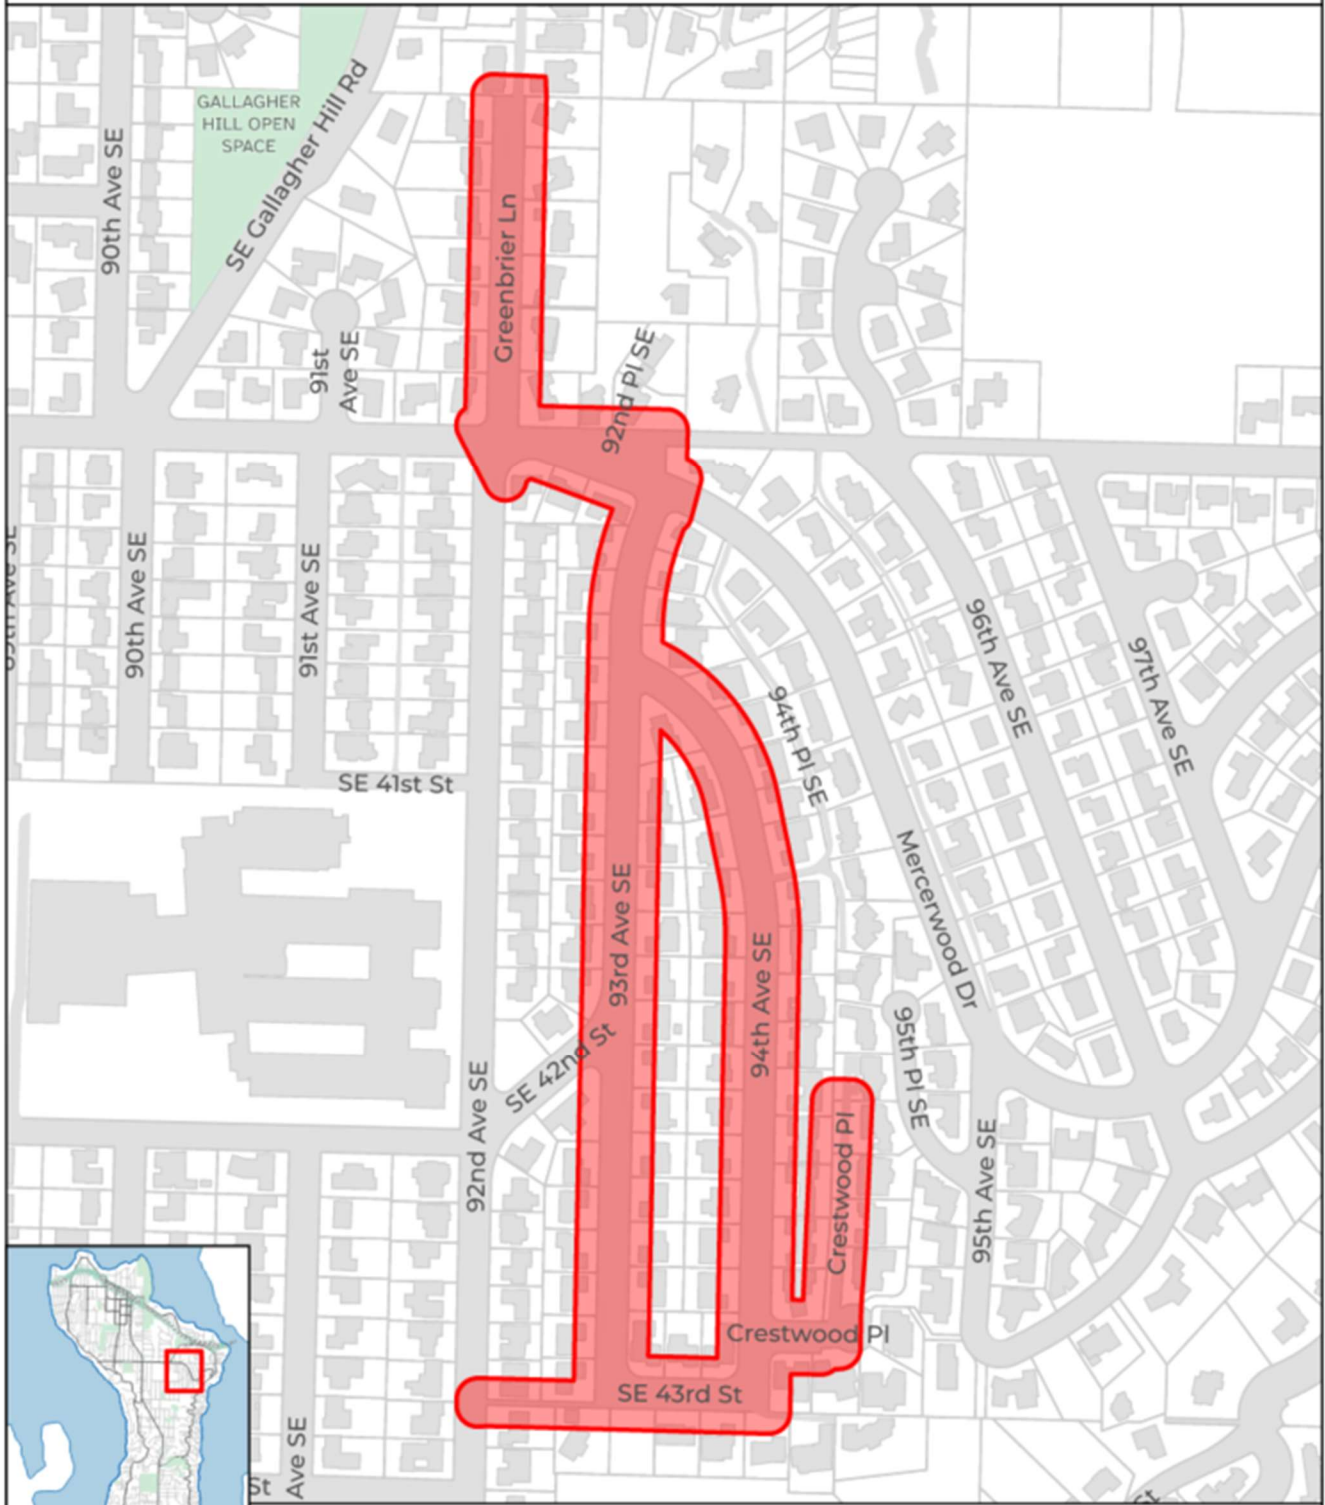

Sincerely,

George Fletcher
